

# How to Access Learning Settings

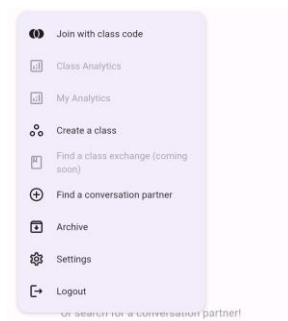

## 1. Show Menu Options

Click on the Menu Options icon (cog).

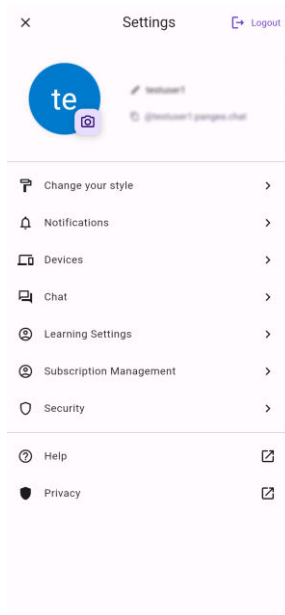

## 2. Find Settings

Click on "Settings."

## 3. Find Learning Settings

Click on "Learning Settings."

## 4. Learning Settings

Here you will be able to change your base and target languages, your country, profile privacy (only available to users 18+), and the enabling/disabling of language tools (the base/target languages and language tool settings will be overridden by class settings in a class space).
