

How to Chat with the Pangea Bot

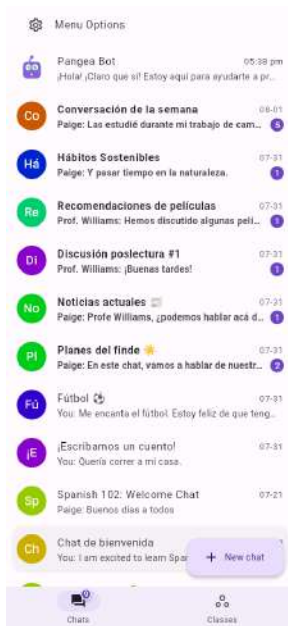

1. Sign in to your Pangea Chat account

Sign in to your account via the web, iOS, or Android version of Pangea Chat.

2. Click on the Pangea Bot chat

In your list of "Chats," you will see a chat called "Pangea Bot." Click on it.

3. Start messaging

Send a message to Pangea Bot to start the conversation. You can ask it to talk with you about a specific topic like the Women's World Cup or you can ask it a specific question like, "¿Qué puedo hacer en Barranquilla, Colombia como turista?"

4. Chat with Pangea Bot

At Pangea Chat, we are all about human to human interaction. We created Pangea Bot because we know that there are times you want to practice a language and no one is online to talk to you. However, Pangea Bot can only interact with you so much before it will prompt you to practice with another human. If you still haven't found a human after an 1.5 hour, you can come back and engage in more practice with Pangea Bot.

As you chat, you will be able to access all the learning tools (Interactive Translation, Interactive Grammar Checker, Dictionary Pop-up Cards, Language Toggle, etc...) that you can use elsewhere on Pangea Chat to help you compose messages in your target language and understand those you receive from Pangea Bot.
